

Bachelor of Education (B.Ed) Two Year CBCS Program

**Ordinance and Regulations for the Course of Bachelor of
Education (B.Ed.) Two Year CBCS Program**

2023

**DEPARTMENT OF EDUCATION
DEEN DAYAL UPADHYAYA GORAKHPUR UNIVERSITY
GORAKHPUR-273009**

Ordinances for admission in Bachelor of Education (B.Ed.) Two Year CBCS Program

About the University:

Deen Dayal Upadhyaya Gorakhpur University, established in 1957 by the Uttar Pradesh State Universities Act, in its long eventful journey has constantly striven to live up to its motto, "आ नो भद्राः क्रतवो यन्तु ववश्वताः" (Let noble thoughts come to me from all directions) by assimilating diverse ideas, people and beliefs into its academic life.

The geographical location of the University is 26.7480 degrees North (latitude), 83.3812 degrees East (longitude). The University, the first to be established in Uttar Pradesh after Independence and named after the great political thinker, Pandit Deen Dayal Upadhyaya is located in the holy city of Gorakhpur and inherits the spiritual and philosophical legacy of Buddha, Kabir and Guru Gorakshnath.

The University has neat and attractive campus spread over an area of 191.21 acres with well-planned teaching and residential campuses. In the beginning the University was housed in two buildings the Pant Block (inaugurated by late Pt. G.B. Pant) and the Majithia Block (named after Sir Surendra Singh Majithia, who made a significant donation to the building through his family trust). Several other buildings came up during the following decades: they include the Central Library, the Arts Block, the Administrative Block, the Law Faculty, a Student's Union Building, a Gymnasium hall, a Health Centre, a Computer Centre and Research Buildings for Chemistry, Zoology and Botany. Besides, there are separate Buildings for Biotechnology, Defense and Strategic Studies, Electronics, Commerce, Business Management, Education, Home Science, Geography, Psychology, Sociology, Hindi, Ancient History, Fine Arts and Music, Political Science and Adult and continuing Education. At present the University houses 08 faculties comprising of 29 departments that have been playing a significant role in imparting holistic education to the people of the Eastern region since its inception.

In the residential zone, the University have more than 350 quarters for teachers and officials of the University and about the same number of the non-teaching staff. There are several hostels- four boys' hostel, two girls' hostel and one International Students Hostel- which have facilities of mess, reading-cum-TV room, games, etc. The students living in the city are attached to the Delegacy which looks after their academic interests and provides facilities in extra-curricular activities.

As a residential-cum-affiliating State University it can boast of a rich academic legacy, illustrious alumni, experienced, qualified and dedicated faculty members, transparent, effective and responsive administrative set up, state-of-the art library, Wi-Fi campus, ample career growth opportunities for its students, advanced research facilities and a vibrant and safe campus.

With its cherished goal of nourishing creative talent and scientific temper among its students and sensitizing them to larger Education, socio-economic and political realities, the University aspires to contribute meaningfully to regional and national development.

1. Admission Ordinance:

1. Deen Dayal Upadhyaya Gorakhpur University Gorakhpur offers fulltime Two year B.Ed. CBCS Program in Department of Education. The programme targets those Indian nationals as well as foreign nations who have been permitted by the Government of India. This Programme will run as per Deen Dayal Upadhyaya Gorakhpur University Gorakhpur Academic Program under Ordinance Based Credit System (CBCS) into effect from Academic Session 2021-2022 (and NCTE Rules and regulations as stipulated from time to time).

This programme intends to help in getting equipped with the skills and attitudes necessary to face the challenges usually emerging in schools B.Ed two year , thus, has several objectives like developing various skills and competencies and inculcating values that are essential for improving the performance of the school and school leaders as Teachers. B.Ed is a programme meant for the professional development of the prospective as well as In-service school heads/principals and other interested persons.

2. **General Introduction-** following are the general introduction of the course:

- I. The course shall be a full-time course.
- II. The course shall be divided into two semesters with a the internship and there shall be examination in each semester as per CBCS / Semester rules.
- III. This course shall have the status of vocational course.

3. Programme Objectives:

- i) To develop essential skills, competencies and values needed for effective classroom teaching and school leadership.
- ii) To enable teachers to create an effective teaching learning enabling environment.
- iii) To improve the overall performance of the school teaching learning environment.
- iv) To develop a trained and competent cadre of teachers/ principals.

4. Duration and Working Days

4.1 Duration

The B.Ed CBCS programme shall be of duration of Two academic years and four Semester, which can be completed in a maximum of four years from the date of the admission to the programme.

4.2 Working Days

There shall be at least two hundred working days each year exclusive of the period of examination and admission.

- (a) The institution shall work for a minimum of thirty six hours in a week (five or six days)] during which physical presence in the institution of all student teachers is necessary.
- (b) The minimum attendance of student-teachers shall have to be 80% for all course work and practicum, and 90% for school internship.

5. Intake, Eligibility, Admission Procedure and Fees

5.1 Intake

There shall be a basic unit of 50 students, with a maximum of two units. There shall not be more than twenty five students per teacher for a school subject for method courses/ pedagogic courses and other practical activities of the programme to facilitate participatory teaching and learning.

5.2 Eligibility

- (a) Candidates with at least fifty per cent mark either in the Bachelor's Degree and/or in the Master's Degree in Sciences/Social Sciences/Humanity, Bachelor's in Engineering or Technology with specialization in Science and Mathematics with 55% marks or any other

qualification equivalent thereto, are eligible for admission to the programme. The reservation and relaxation for SC/ST/OBC/PWD and other categories shall be as per the rules of the Central Government/State Government, whichever is applicable.

5.3 Admission Procedure

Admission shall be made on merit on the basis of marks obtained in the qualifying examination and/or in the entrance examination or any other selection process as per the policy of the State Government and the University.

5.4 Fees

The institution shall charge only such fee as prescribed by the affiliating body/state government.

6. Curriculum, Programme Implementation and Assessment

6.1 Curriculum

The B.Ed. course is designed to integrate the study of subject knowledge, human development, and pedagogic knowledge and communication skills. The programme comprises of three broad curricular areas: Foundations of Education, Curriculum and Pedagogic Studies and Engagement with the field.

The courses under each of these curricular areas are based on a close reading of original writings, seminar/term paper presentations and continuous engagement with the field. Transaction of the courses is to be done using a variety of approaches, such as, case studies, discussions on reflective journals, observations of children, and interactions with the community in multiple socio-cultural environments.

(i) Theory Courses: There are Fifteen theory courses.

(ii). Engagement with the Field/Practicum

The B.Ed. programme shall provide for sustained engagement with the self and the child, Community and School, at different levels and through establishing close connections between different curricular areas. This curriculum area would serve as an important link between the above two board curricular areas through its three components viz.

- (a) Tasks and Assignments that run through all the courses,
- (b) School Internship
- (c) Courses on Enhancing Professional Capacities as practical activities.

(iii). School Internship

School internship would be a part of the broad area of 'Engagement with the Field'. Students are to be actively engaged at teaching for 06 weeks or One month and Fifteen days.

7. Programme Implementation

The institution shall meet the following specific demands of implementing this professional programme of study;

- i) Prepare a calendar for all activities, including school internship. The school internship and other school contact programmes shall be synchronized with the academic calendar of the school.
- ii) Make an arrangement of schools for the internship as well as other school-based activities of the programme. The arrangement shall have the approval of the district education authorities. These schools shall form basic contact points for all the practicum/ assignment activities and related work during the course of the programme.
- iii) Interns shall maintain reflective journals and observation records, which provide opportunities for reflective thinking.
- iv) Initiate discourse on education by periodically organising seminars, debates, lectures and discussion groups for students and faculty.
- v) Organize academic enrichment programmes including interactions with faculty from parent disciplines; and encourage faculty members to participate in academic pursuits and pursue research, especially in schools.

- vi) School teachers shall be invited to teacher education institutions for feedback to student-teachers and for extension/guest lectures and organising colloquium.
- vii) There shall be mechanisms and provisions for addressing complaints of students and faculty, and for grievance redressal.
- viii) For school internship, the school teachers and the participating schools set up a mutually agreed mechanism for mentoring, supervising, tracking and assessing the student teachers.
- ix) Board of Studies shall reconsider and communicate the number and format of assignments in every academic session.

PROGRAM OUTCOME-

1. POC- EDUBED-101- This course will give the basic idea concept and role of education.
2. POC- EDUBED-102- This course will give Develop understanding of various philosophical concepts implacable in education.
3. POC- EDUBED-103-This course will help in understanding of process and theories of learning & motivation.
4. POC- EDUBED-104-This course will enable the students in understanding Understand the characteristic features, strengths and weaknesses of ancient, medieval, British and contemporary system of education in India and contribution of various major committees and commissions on education.
5. POC- EDUBED-105A- This course will enable the students in understanding the various methods and strategies for realizing the objectives of environmental education.
6. POC- EDUBED-105B- This course will enable the students to understand the relationship between Culture and Human Values with special reference to India.
7. POC- EDUBED-106- This course will enable the students to acquaint the student teachers with the concept of educational administration & Management and its implication in Education.
8. POC- EDUBED-107-This course will enable the students understand the role and implication of Evaluation and measurement in school teaching learning environment.
9. POC- EDUBED-108-This course intend to enhance the professional competency in future teachers.
10. POC- EDUBED-109A-This course intends to enhance capacity of understand the meaning, specific characteristics and modalities of identification of various types of (students who are different then majority of are) exceptional learners.
11. POC- EDUBED-109B- This course intends to develop the capacity of understanding of various need concept and procedures of organizing various Guidance services.
12. POC- EDUBED-110-This course enables the students understand the learner and teacher centered approaches of classroom teaching.

8. Program Structure (Total Credit- 80)

8-A: STRUCTURE OF COURSES OF B. Ed. TWO YEAR CBCS PROGRAMME

Course Code	Title of the course	Internal marks	External marks	Total Marks	Credit
FIRST SEMESTER					
CORE COURSES					
EDUBED-101	Fundamentals of Education	25	75	100	04
EDUBED-102	Knowledge and Curriculum	25	75	100	04
EDUBED-103	Childhood and Growing up	25	75	100	04
EDUBED-104	Contemporary India and Education	25	75	100	04

EDUBED-115	Challenges and Issues of education in India	25	75	100	04
EDUBED-116	Knowing your school and Society (School based activities)	25	75	100	04
DISCIPLINE SPECIFIC COURSES (Any one course out of A and B)					
EUBED-117 (A and B)	A) Education for marginalized groups	25	75	100	04
	B) Population Education	25	75	100	04
Total Marks		125	375	500	20
GRAND TOTAL		500	1500	2000	80

NOTE:

*EPC- A: Reading and Reflecting on Text, B: Micro Teaching and ICT in Classroom, C: Understanding the Self, D: Drama, Art, Music and Role of Movies in Education

** Each candidate shall have to select two school subjects to be studied as method papers from the following groups and students will select two school subjects from two different groups of pedagogic subjects as grouped hereunder;

EDUBED-112-PEDAGOGY OF TEACHING SCHOOL SUBJECT

Group-A	Group-B	Group-C	Group-D	Group-E
A-1 Physical Science	B-1 Biological Science	C-1 Mathematics	D-1 Commerce	E-1 Hindi
A-2 Geography	B-2 Economics	C-2 History	D-2 Civics	E-2 English
A-3 Sanskrit	B-3 Art & Handicraft		D-3 Home Science	E-3 Agriculture

9. Assessment

All the theoretical courses shall be assigned 25% of maximum marks for internal assessment and remaining 75% for external examination. Practice teaching shall be assessed internally in 50 marks and externally in 150 marks. Candidates must be assessed on the entire Practical Activities. **Practical Activities will be assessed externally through viva-voce on activity records.** The bases of internal assessment may include individual or group assignments, observation records, student portfolio, diaries, journal etc.

9-B: Practical Orientation:

Course Code -EDUBED-111-Each candidate shall have to compulsorily undergo the following learning experiences of school Internship (practical activities) in third semester;

1.	Teaching of 40 (forty) Lesson Pedagogical subject(20 in each school subject taken up as pedagogy of school- I and II in actual classroom situation and prepare a record.	20 Marks
2.	Observations of 20 peers teaching sessions in the actual classroom situation and prepare a record.	10 Marks
3.	Report of Action Research	10 Marks
4.	Reports of Co-curricular activities of School	10 Marks
	Total (Internal Marks)	50 Marks
	Practical observation of Teaching (External Marks)	150 Marks
	Total	200 Marks

(C) Course Code -EDUBED-116-Each candidate shall have to complete all of the following learning experiences of school and social activities in forth semester (practical activities);

S.No.	Activities to be done	Marks allocated	
		Record	Viva-Voce
1	Preparing all type of school record / Registers	25	75
2	Educational Excursion and its report / Visit 05 Primary Schools and its report related to Resources and Teaching learning environment		
3	Survey report of BRC and DIET and its report related to Resources and Teaching learning environment		
4	Survey report of Special School / Pre-Primary and its report related to Resources and Teaching learning environment		
5	Literacy and Cleanliness campaign Report		
	Total	100	

9-C: Activities of Rovers & Rangers

1. Activities of Rover and Rangers shall be internally evaluated under following grades;

Excellent	-	A
Very Good	-	B
Good	-	C
Satisfactory	-	D
Unsatisfactory	-	E

The marks of Theory Courses and Practical Activities will be mentioned in the relevant column of the mark sheet. Grades of Rovers and Rangers will be mentioned separately in the candidate's mark sheet. The grade however will not affect the division of the examinee. Marks of internal assessment of theory courses and grades of Rover Rangers Activities shall be submitted by the Head/ principal, concerned, to the Controller of Examinations.

10. Rules Pertaining to Examinations:

- It shall be mandatory for each student to attend a minimum of 80% theory classes. In case the attendance falls short of the minimum percentage the candidate will not be allowed to appear in the B.Ed. theory examination. As per the provisions of the University ordinances the Head/Dean in the case of University Department of Education and Principal in the case of Degree College will have the power to condone up to 5% of the attendance and the Vice-Chancellor on the recommendation of the

Principal/Head/Dean of Education may condone up to 10% of the attendance. Thus, a maximum of 15% attendance may be condoned. Relaxation in attendance may be allowed for candidates participating in sports or other activities sponsored by the University/College or on medical grounds only.

- It shall be mandatory for each student to participate in all practical activities and Rover Rangers activities. In case a student fails to complete, for whatsoever reason, these activities during the academic session, he/she shall be de-barred from taking the B.Ed. practice teaching examination as well as sitting in the final theory examination.
- The students shall be promoted to the next semester if he/she has completed all sessional, practical activities and obtained at least 30% marks in each paper.
- In case student fulfills the above requirements and is eligible to sit in the B.Ed. theory and practice of teaching examinations and passes in practical but fails in theory examination then he/she shall be permitted to appear as an ex-student. The B. Ed. Course should be completed in a maximum of four years from the date of admission to the programme as per NCTE norms. It shall be mandatory to pass in the all practical examination in order to be able to appear as an ex-student in the B.Ed. theory examinations.

10-A Conduct of Examinations

After completion of each semester, the student will appear at the examination conducted by the Deen Dayal Upadhyaya Gorakhpur University, Gorakhpur as per CBCS system in semester mode.

10-B Conduct of Examination and Moderation of Results:

- i. The entire two semesters end Examination shall be conducted by the University.
- ii. Answer sheets shall be coded before sending to the examiners and shall be decoded before tabulation of marks.
- iii. A candidate not securing the qualifying marks shall be declared as fail.

Final result of B.Ed. two-year C.B.C.S program shall be published on the basis of candidate's performance in all the paper spread over all the four semesters.

- iv. The result will be published only after the candidate has cleared all the papers securing minimum qualifying marks as approved in the regulations.

10-C Promotion:

- i. A student who fails in not more than two papers in first semester examination, such candidate may be promoted to next semester to continue his/her studies. But such a student will have to clear the backlog papers in immediate succeeding examination of that semester.
- ii. A candidate having completed the courses but have failed to appear at the examination may again be allowed to appear in the next examination on payment of prescribed examination fees without further attending the lecture.

10-D Result Improvement:

A student can re-appear in maximum of two theory papers in the immediate succeeding examination of that semester to improve the candidate result. The better of two scores shall be considered for preparation of the final result.

10-E**Credit System:**

The Credit System as adopted in different Indian Universities as per UGC guidelines/International Universities will be adopted. It may be as follows:

- The credits shall be based on the number of credit hours per week. Normally 1 credit equals to 1 hour of teaching in theory and 1 credit (Practical) equals to 2 hours of practical/project work in a week.
- Credits shall be in whole numbers.
- Credit load through semester system in CBCS form will be implemented in following ways:

Course A: 3 (2+1) Credits means

Theory: Two lectures of one hour each in a week

Practical: One lectures of two hour each in a week

Two theory and one practical will be conducted throughout the semester. The total marks will be 100 and divided into following ways for theory and practical exams.

2+1 also explains $100 \times \frac{2}{3} = 66.66$ theory marks

And $100 \times \frac{1}{3} = 33.33$ practical marks

-Term= 40% of 67= 26.8(Mid of semester)

End-Term= 60% of 67= 40.2(End of semester)

Practical: 33 marks (before Full Term)

Of theory: 66.66 (say 67 marks)

26.8 (say 30 marks)

40.2 (40 marks)

So total 70 marks

Of practical: 33.33 (say 30 marks)

Grading System: The grading system, as detailed hereunder in shall be applicable:

Award of Grades Based on Absolute Marks

Marks-Range (Out of 100)	Grade	Grade Point
90-100	S	10
80-89	A	9
70-79	B	8
60-69	C	7
50-59	D	6
40-49	E	5
Passed with Grace	P	4
00-39	F	0
Absent in examination (Incomplete)	I	-
Incomplete Project /Training/Dissertation	X	-

Theory Examination: 67 marks will be divided into 40% Mid-term and 60% Final exam as follow
Mid

Explanation:

Letter grades **O,A,B,C,D,E and P** in a course mean that the candidate has passed that course.

The “F” grade denotes poor performance, i.e., failing in the course. A student has to appear at subsequent examination(s), if provided under the ordinances in all courses in which he/she obtains “F” grade, until a passing grade is obtained.

The “I” Grade: The “I” Grade is awarded, when a student does not appear in the examination of course/courses. This shall be treated as “F” Grade.

- **The Performance of a candidate in a semester or up to a semester shall be measured by SGPA and CGPA, details of which are given below:**

SGPA: Semester Grade Point Average.

CGPA: Cumulative Grade Point Average.

- **Computation of SGPA and CGPA**

The UGC recommends the following procedure to compute the Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA):

1. The SGPA is the ratio of sum of the product of the number of credits with the grade points scored by a student in all the courses taken by a student and the sum of the number of credits of all the courses undergone by a student, i.e.

$$\text{SGPA (Si)} = \frac{\sum (\text{Ci} \times \text{Gi})}{\sum \text{Ci}}$$

Where Ci is the number of credits of the ith course and Gi is the grade point scored by the student in the ith course.

2. The CGPA is also calculated in the same manner taking into account all the courses undergone by a student over all the semesters of a programme, i.e.

$$\text{CGPA} = \frac{\sum (\text{Ci} \times \text{Si})}{\sum \text{Ci}}$$

Where Si is the SGPA of the ith semester and Ci is the total number of credits in that semester.

3. The SGPA and CGPA shall be rounded off to 2 decimal points and reported in the transcripts.

- **Illustration of Computation of SGPA and CGPA and Format for Transcripts**

1. Computation of SGPA and CGPA

Illustration for SGPA

Course	Credit	Grade Letter	Grade Point	Credit Point (Credit x Grade)
Course 1	3	B	8	3 * 8= 24
Course 2	4	C	7	7*4=28
Course 3	3	D	6	3*6=18
Course 4	3	O	10	3*10=30
Course 5	3	E	5	3*5=15
Course 6	4	P	4	4*4=16
	20			130

Thus, SGPA = $130/20 = 6.95$

Illustration for CGPA

Semester 1	Semester 2	Semester 3	Semester 4	Semester 5	Semester 6
Credit: 20 SGPA: 6.9	Credit: 22 SGPA: 7.8	Credit: 25 SGPA: 5.6	Credit: 26 SGPA: 6.0	Credit: 26 SGPA: 6.3	Credit: 25 SGPA: 8.0

Thus, CGPA = $20*6.9 + 22*7.8 + 25*5.6 + 26*6.0 + 26*6.3 + 25*8.0/144 = 6.73$

- To convert CGPA into percentage then
Percentage= CGPA*10 for example:
from above table CGPA= 6.73 Therefore, in this case, the percentage is $6.73*10 = 67.3\%$

11. Pattern of Examination System:

Each course shall be of 100 marks. For evaluation, the overall structure of the distribution of marks in a course shall be such that 25 marks are allotted to various assessments during the semester, while 75 marks shall be allotted for the end semester examinations:

A. The scheme of assessment during the semester (for 25 marks):

- The assessment/Project (sessional) in theory courses shall be of 20 marks and 05 marks for regularity and Attendance.
- All Heads/Coordinators shall ensure that all internal assessment/Project marks of sessional are sent to Controller of Examination prior to the commencement of End Semester examination.
- Sessional marks of a course shall be carried over for failed students in the course.

B. End Semester Examination and evaluation (for 75 marks):

The question papers shall be set and the answer-scripts shall be evaluated by the teachers of the concerned courses. If there is more than one teacher teaching the course, the question paper shall ordinarily be set and evaluated by a teacher of the group, appointed by the Board of Examiners.

C. Medium of Examination

Candidates will have the option of writing the examination either in Hindi or in English medium.

D. Practical Examination in the form of Viva-Voce/Practice Teaching/School based activity Examination:

Second semester, Third Semester and forth semester is having Practical examination. In teaching practice examination. Each candidate will be required to teach two lessons and will be evaluated by a panel of two external examiners and one internal examiner appointed by the appropriate authority of the University. It will be mandatory for the institution to place before the examiners' panel Required record of student's sessional work in each practical examination. The examiners' panel will have the power to moderate the internally awarded marks. The examiners shall submit the marks directly to the controller of examination of the University.

12. Course Structure

COURSE- EDUBED-101 Fundamentals of Education

CREDIT-4**MM: 100****COURSE OBJECTIVES:** To enable student teachers to understand;

1. Basic ideas of education.
2. Role and impact of education.
3. The importance and role of education in the progress of Indian society.
4. The role of education in promoting national integration and international understanding.

EDUBED-112**CREDIT-4****MM: 100****PEDAGOGY OF TEACHING SCHOOL SUBJECT****EDUBED-112 A -1 PHYSICAL SCIENCES****COURSE OBJECTIVES-** The course aims to enable student teachers to –

- Develop a broad understanding of the principles and procedures used in modern science education.
- Develop their essential skills for practicing modern Science Education.
- Develop their skills necessary for preparing instructional accessories.
- Prepare models; select teaching strategies essential for preparing designs of lessons.
- Manage instructional activity in such a way that the vast majority of the learners attain most of the objectives of teaching.

UNIT	COURSE CONTENT
I	CONCEPT,NATURE OF PHYSICAL SCIENCE <ul style="list-style-type: none"> • Concept and meaning importance of Physical Sciences • Thrust areas of physics and chemistry – Impact of science on modern life, globalization.

	<ul style="list-style-type: none"> • Path tracking discoveries and land mark development in science; • Principles and maxims of Teaching Physical Science
II	OBJECTIVES AND ROLE <ul style="list-style-type: none"> • Justification for including physical sciences as a subject of study in the school curriculum. • Objective of Teaching Physical Sciences at the secondary level of schooling. Taxonomy of educational objective – Process outcomes, product outcomes, concept attainments, behavioral developers of education. • Concept of entering and terminal behavior. Organization of learning experiences for achieving specified behavioral outcomes.
III	METHODS OF TEACHING AND PLANNING: <ul style="list-style-type: none"> • Major methods used for physical science instruction: inductive Deductive, Analysis and Synthesis, Discussion, Demonstration, Project, Heuristic, Laboratory etc. • Major models of instruction useful for science education such as Basic Teaching Model and Concept Attainment Model. • Planning for teaching and developing year plans, unit plans, lesson plans, content analysis, and pedagogical analysis.
IV	TEACHING IN A DIVERSE SITUATION <ul style="list-style-type: none"> • Co-curricular and non-formal approaches: Activity approaches and non-formal methods of physical science teaching such as: field trip, science clubs, visits to science museums, original science projects etc. Importance of organizing science fairs and excursions. • Preparation and development of improvised apparatus; preparation, selection and use of teaching aids. The use of computer in teaching physical sciences
V	TEACHING AND ITS EVALUATION <ul style="list-style-type: none"> • Evaluating outcomes of physical science teaching: Merits and limitations of different item formats for assessing learning outcomes of science teaching. • Writing items in different formats for evaluating learning outcomes at various levels of cognitive, affective and psychomotor domain. Try out, item analysis and selection of items suitable for formative and summative evaluation. • Diagnostic testing and remedial teaching; developing formative evaluation instruments as aids to learning • Curriculum accessories and support material – Textbooks, Journals, Handbooks, student's work books, display slides, laboratory materials, audio – video support material, etc. – their critical evaluation from the point of view of teaching physical science • Action Research –concept need important and steps

PEDAGOGY OF TEACHING SCHOOL SUBJECT

EDUBED-112-C-1 MATHEMATICS

CREDIT-4

MM: 100

COURSE OBJECTIVES: To enable the pupil teacher to:-

1. Understand and appreciate the uses and significance of mathematics in daily life.
2. Learn successfully various approaches to mathematics and to use them judiciously.
3. Know the methods of planning instruction for the classroom.
4. Prepare curricular activities and organize the library in it as per the needs.
5. Appreciate and organize activities to develop aesthetics of mathematics.
6. Obtain feedback both about teaching as well as student's learning.

UNIT	COURSE CONTENT
I	<p style="text-align: center;">MEANING AND NATURE OF MATHEMATICS</p> <ul style="list-style-type: none"> • Concept/Nature of Mathematics • Objectives of teaching Meaning of mathematics; • History of Mathematics; contributions of Indian Mathematicians with reference to Bhaskaracharya, Aryabhata, Leelavathi, Ramanujam and contribution of Euclid, Pythagoras, Rene Descarteome Science at Secondary level • Objectives of teaching mathematics in terms of instruction and behavior, approaches to teaching of mathematics viz., inductive, deductive, analytical, synthetic, heuristic, project and laboratory, using various techniques for teaching mathematics • Principles and Maxims of Mathematics Curriculum construction.
II	<p style="text-align: center;">METHODS OF TEACHING</p> <ul style="list-style-type: none"> • Meaning and importance/purpose of a lesson plan, Preformat of a lesson plan and its rationality, meaning and purpose of a unit-and-unit plan, purpose of an yearly plan, developing/preparing low cost improvised teaching aids relevant to local ethos, skill in maintaining and using blackboard, models, charts, TV, films and video tapes and VCR..
III	<p style="text-align: center;">PLANNING FOR BETTER TEACHING</p> <ul style="list-style-type: none"> • Principles and rationale of curriculum development; organizing the syllabi both logically and psychologically according to the age groups of children, Planning activities and methods of developing the substitutes/alternatives material to the prescribed, for completing the syllabi. • Approaches to curriculum organization using procedures like concentric, topical, process and integrated approaches. Adapting the curriculum to local needs and requirements and the availability of local resource. Practical work in Home Science; record writing for Home Science projects.
IV	<p style="text-align: center;">TEACHING IN A DIVERSE SITUATION</p> <ul style="list-style-type: none"> • Co-curricular and non-formal approaches: Activity approaches and non-formal methods of Mathematics teaching such as: Using mathematics as a game for recreation, organizing Quiz programmes, skill development in answering puzzles, magic squares, word search etc., developing a math's laboratory; learning about the short cuts mentioned in Vedic mathematics. • Preparation and development of improvised apparatus; preparation, selection and use of teaching aids. Computer assisted teaching in Mathematics
V	<p style="text-align: center;">TEACHING AND ITS EVALUATION</p> <ul style="list-style-type: none"> • Evaluating outcomes of Mathematics teaching: Merits and limitations of different

item formats for assessing learning outcomes of Mathematics teaching. Writing items in different formats for evaluating learning outcomes at various levels of cognitive, affective and psychomotor domain. Try out, item analysis and selection of items suitable for formative and summative evaluation.

- Diagnostic testing and remedial teaching; developing formative evaluation instruments as aids to learning
- Curriculum accessories and support material – Textbooks, Journals, Handbooks, student's work books, display slides, laboratory materials, audio – video support material, etc. – their critical evaluation from the point of view of teaching Mathematics.
