Date : September 03, 2024

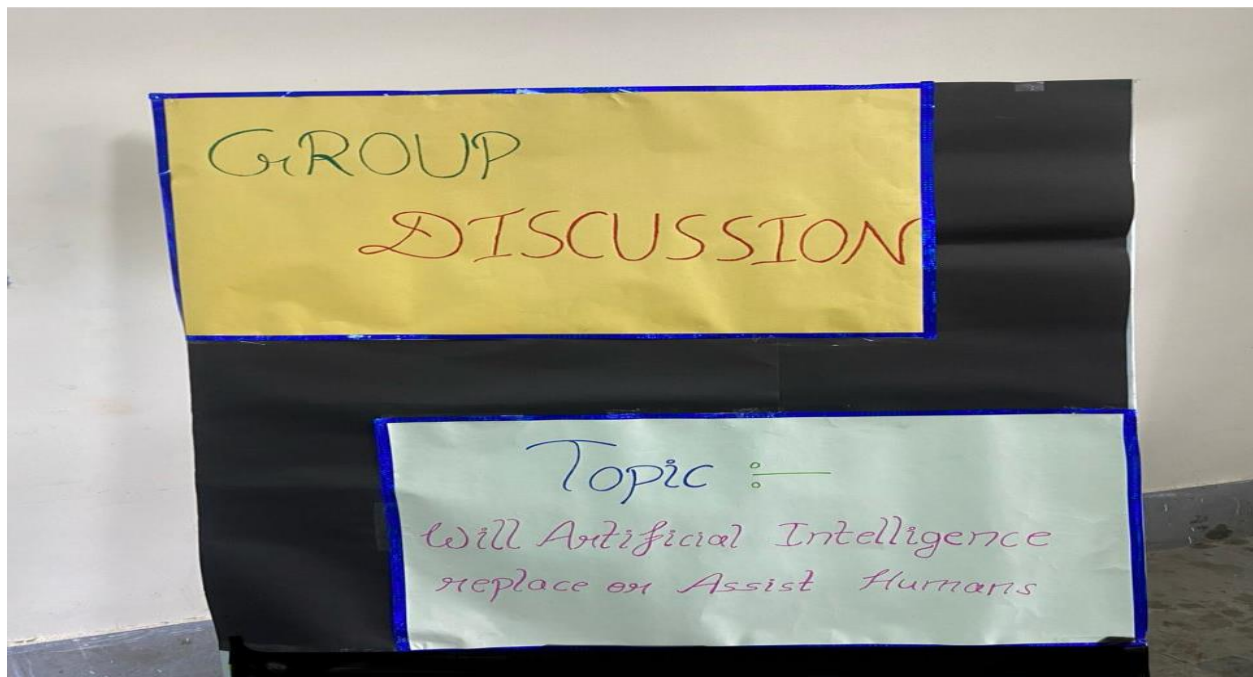

On September 3, 2024, an Interactive Group discussion on “Will Artificial Intelligence replace or assist Humans” was organized for MBA Final Year Students in the Department of Business Administration. Discussion is an integral part for management personnel’s which is used to find a solution for given problem situation. It involves a discussion on a given topic with other candidates, usually with similar experience and qualification and play a significant role in improving the decision

making skills. For conducting this activity the necessary assistance and guidance was provided by Prof. Shrivardhan Pathak (Head) and Prof. Manish Kumar Srivastava (Coordinator) of the department.

The session was started by Mr. Rahul Pal. He brief the students about the topic of the GD and make them aware about the basic etiquettes which are required for the effective group discussion.

After that the discussion was started and all the students actively participated and shared their views on the given topic. Some students highlighted how AI assisted the human while other pointed how it going to replace humans in future. Students successfully defended their views with supportive justifications.

At the end of the session the key parameters (like attentive listening, active participation, supportive justification and an appropriate body language) on which this discussion was evaluated and explained by Ms. Anshika Mishra and further suggestions for making such discussion more effective in future were provided by Mrs. Shivangi Gupta which will definitely help the management students in their future endeavours.
