plant in 1983. Since then, IGL has brought together cutting-edge technology, innovation and an unflinching commitment to quality, to manufacture a wide range of products that have found global demand.

IGL's state-of-the-art, integrated facilities manufacture chemicals including glycols, ethoxylates, glycol ethers and acetates, and various performance chemicals. Its product range spans the chemicals, spirits, herbal and other phytochemical extracts and guar gum, industrial gases and realty sectors, and finds application across an increasing number of industries. These products are manufactured in compliance with stringent global standards of plant operations, quality and safety. The company's facilities have been approved and certified by international agencies including Det Norske Veritas (DNV). The operations at all plants are closely monitored through distributed control systems (DCS), which facilitate a high degree of control over the quality of products.

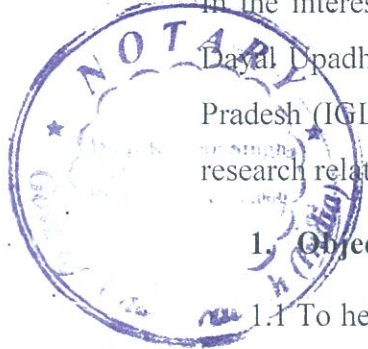

Keeping in mind the critical dependence on agricultural feedstock, the company has taken up several initiatives including backward integration into sugar manufacturing to ensure seamless raw material availability. Other complementary initiatives include co-opting the cane growing community to ensure cane availability while providing adequate returns to the farmer. IGL has traditionally looked to leverage the export potential of its products. The company has therefore initiated the process of aligning to emerging global trends and has established facilities and operations that are in compliance with global good manufacturing practices. **Hereafter referred as the "SECOND PARTY", in the MoU.**

At the moment, the dynamics of study programme demand, combined with our institutional capabilities, result in Bachelor's, Master's, and Ph.D. study programmes.

In the interest of establishing a relationship of mutual benefit to both organizations, Deen Dayal Upadhyaya Gorakhpur University and India Glycols Limited, Gida, Gorakhpur, Uttar Pradesh (IGL) have agreed to the areas of collaboration on academic, entrepreneurship and research related activities as mentioned in this MoU.
