#### viii. INFLIBNET Learning Management Service (ILMS)

The Learning Management Service is one of the modes of learning which facilitate learners and teachers to execute the learning environment. The INFLIBNET Centre has been working as a facilitator for setting-up INFLIBNET Learning Management Service (ILMS) with pre-populated e-content developed under e-PG Pathshala and other available open access content with an aim to make all the e-content available to the academic and research community.

#### ILMS: Roles and Responsibilities

##### INFLIBNET CENTRE

- Shall implement / setting-up the ILMS using open-source software with functions and features that are expected in a modern day LMS on university server.
- Shall customize the ILMS (look & feel, theme, banner and logo);
- Shall integrate, on request basis, course content developed under e-PG Pathshala (700+ PG courses);
- Shall provide help manual / video tutorials for its stakeholders;
- Shall provide one day training on mutual consent;
- Shall provide hosting facility of ILMS on charge basis, if university is unable to provide the server;
- Shall provide self-paced course, in-built with ILMS, to the University.

##### UNIVERSITY

- Shall provide server, pre-requisite configuration, to set-up ILMS

*Done*

- Shall obtain sub-domain name with “ILMS. university name”
- Shall create / enrol users and its management
- Shall create course content as per university requirement
- Shall keep regular back-up and hardware related responsibilities.
- Shall provide the locally developed content, on mutual consent, to INFLIBNET Centre to host on open access platform, developed by the INFLIBNET Centre.
- Shall not claim the ownership of the e-content as it developed under e-PG Pathshala and released under CC-BY-SA license that provides flexibility in accessing the content.
- Shall not hold the INFLIBNET Centre responsible for any ambiguity in the e-content made available in the ILMS.
- Shall request to provide hosting facility (charge basis) of ILMS to INFLIBNET in case of non-availability of server at University.

**ix. Indian Research Information Network System (IRINS)**

It is web-based Research Information Management (RIM) service developed by the INFLIBNET Centre. The portal facilitates the academic, R&D organisations and faculty members, scientists to collect, curate and showcase the scholarly communication activities and provide an opportunity to create the scholarly network. It has integrated with academic identities such as ORCID ID, Scopus ID, Research ID, Microsoft Academic ID, and Google Scholar ID to ingest scholarly publications from various sources.

**IRINS: Roles and Responsibilities**

**INFLIBNET**

- Collect and curate all the faculty information including personal information, affiliation, educational qualification, honour & awards, academic identities, etc;
- Create a separate instance for all the participating institutes with department and University / Institute profile;
- Hosting IRINS with subdomain and regular update on the application;
- Nodal officer dashboard to manage the faculty profile for each University / Institute with various features and functionalities;
- Conduct user awareness programme to the faculty members and nodal officer to implementation of IRINS;

**UNIVERSITY**

- Shall provide all the faculty information in the prescribed format
- Coordinate with faculty members and INFLIBNET Centre on data collection and update;
- Responsible for the all the faculty profile information
- Create awareness about the IRINS to the faculty members
- Supports the faculty members to create the profile and update it as and when required
